Nisarg | Human Design Analyst and Coach
Nisarg B. Nikiel
Salzburg
Austria

Object of the company: Coachings and Workshops

Email: nisarghumandesign@gmail.com

Job title: Human Design Analyst and Coach
Awarding country: Austria

Privacy Policy

Privacy Policy

We have written this privacy policy (version 01.01.1970-121690788) to provide you with information in accordance with the requirements of the General Data Protection Regulation (EU) 2016/679 as well as to explain what information we collect, how we use data and what choices you have as a visitor to this website.

Privacy policies usually sound very technical. However, this version should describe the most important things as simply and clearly as possible. Moreover, technical terms are explained in a reader-friendly manner whenever possible. We would also like to convey that we only collect and use information via this website if there is a corresponding legal basis for it. This is certainly not possible if you give very brief technical explanations, as are often standard on the Internet when it comes to data protection. We hope you find the following explanations interesting and informative. Maybe you will also find some information that you did not know yet.

Should you still have questions, we kindly ask you to follow the existing links to see further information on third-party websites, or to simply write us an email. You can find our contact information in our website's imprint.

Automatic Data Retention

Every time you visit a website nowadays, certain information is automatically created and stored, just as it happens on this website. This data should be collected as sparingly as possible, and only with good reason. By website, we mean the entirety of all websites on your domain, i.e. everything from the homepage to the very last subpage (like this one here). By domain we mean example.uk or examplepage.com.

Even while you are currently visiting our website, our web server – this is the computer this website is stored on, usually automatically retains data such as the below – for reasons such as operational security or for creating access statistics etc.

- the full address (URL) of the accessed website (e. g. <https://www.examplepage.uk/examplesubpage.html/>)
- browser and browser version (e.g. Chrome 87)
- the operating system used (e.g. Windows 10)
- the address (URL) of the previously visited site (referrer URL)
(z. B. <https://www.examplepage.uk/icamefromhere.html/>)
- the host name and the IP-address of the device the website is accessed from
(e.g. COMPUTERNAME and 194.23.43.121)
- date and time
- in so-called web server log files.

Generally, these files are stored for two weeks and are then automatically deleted. We do not pass these data to others, but we cannot exclude the possibility that this data may be looked at by the authorities in case of illegal conduct.

In short: your visit is logged by our provider (company that runs our website on servers), but we do not pass on your data!

Cookies

Our website uses HTTP-cookies to store user-specific data.

For your better understanding of the following Privacy Policy statement, we will explain to you below what cookies are and why they are in use.

What exactly are cookies?

Every time you surf the internet, you use a browser. Common browsers are for example Chrome, Safari, Firefox, Internet Explorer and Microsoft Edge. Most websites store small text-files in your browser. These files are called cookies.

What should not be dismissed, is that cookies are very useful little helpers. Nearly all websites use cookies. More accurately speaking these are HTTP-cookies, since there are also different cookies for other uses. http-cookies are small files which our website stores on your computer. These cookie files are automatically put into the cookie-folder, which is like the "brain" of your browser. A cookie consists of a name and a value. Moreover, to define a cookie, one or multiple attributes must be specified.

Cookies save certain parts of your user data, such as e.g. language or personal page settings. When you re-open our website, your browser submits these "user specific" information back to our site. Thanks to cookies, our website knows who you are and offers you the settings you are familiar to. In some browsers every cookie has its own file, in others such as Firefox, all cookies are stored in one single file.

There are both first-party cookies and third-party cookies. First-party cookies are created directly by our site, while third-party cookies are created by partner-websites (e.g. Google Analytics). Every cookie is individual, since every cookie stores different data. The expiration time of a cookie also varies – it can be a few minutes, or up to a few years. Cookies are no software-programs and contain no computer viruses, trojans or any other malware. Cookies also cannot access your PC's information.

This is an example of how cookie-files can look:

```
name: _ga
value: GA1.2.1326744211.152121690788-9
purpose: differentiation between website visitors
expiration date: after 2 years
```

A browser should support these minimum sizes:

- at least 4096 bytes per cookie
- at least 50 cookies per domain
- at least 3000 cookies in total

Which types of cookies are there?

What exact cookies we use, depends on the used services. We will explain this in the following sections of the Privacy Policy statement. Firstly, we will briefly focus on the different types of HTTP-cookies.

There are 4 different types of cookies:

Essential Cookies

These cookies are necessary to ensure the basic function of a website. They are needed when a user for example puts a product into their shopping cart, then continues surfing on different websites and comes back later in order to proceed to the checkout. Even when the user closed their window priorly, these cookies ensure that the shopping cart does not get deleted.

Purposive Cookies

These cookies collect info about the user behaviour and record if the user potentially receives any error messages. Furthermore, these cookies record the website's loading time as well as its behaviour within different browsers.

Target-orientated Cookies

These cookies care for an improved user-friendliness. Thus, information such as previously entered locations, fonts or data in forms stay saved.

Advertising Cookies

These cookies are also known as targeting-Cookies. They serve the purpose of delivering individually adapted advertisements to the user. This can be very practical, but also rather annoying.

Upon your first visit to a website you are usually asked which of these cookie-types you want to accept. Furthermore, this decision will of course also be saved in a cookie.

How can I delete cookies?

You yourself take the decision if and how you want to use cookies. Thus, no matter what service or website cookies are from, you always have the option to delete, deactivate or only partially allow them. Therefore, you can for example block cookies of third parties but allow any other cookies.

If you want change or delete cookie-settings and would like to determine which cookies have been saved to your browser, you can find this info in your browser-settings.

If you generally do not want to allow any cookies at all, you can set up your browser in a way, to notify you whenever a potential cookie is about to be set. This gives you the opportunity to manually decide to either permit or deny the placement of every single cookie. The settings for this differ from browser to browser. Therefore, it might be best for you to search for the instructions in Google. If you are using Chrome, you could for example put the search phrase "deactivate cookies Chrome" or "deactivate cookies Chrome" into Google.

How is my data protected?

There is a "cookie policy" that has been in place since 2009. It states that the storage of cookies requires the user's consent. However, among the countries of the EU, these guidelines are often met with mixed reactions. In Austria the guidelines have been implemented in § 96 section 3 of the Telecommunications Act (TKG).

If you want to learn more about cookies and do not mind technical documentation, we recommend <https://tools.ietf.org/html/rfc6265>, the Request for Comments of the Internet Engineering Task Force (IETF) called "HTTP State Management Mechanism".

Storage of Personal Data

Any personal data you electronically submit to us on this website, such as your name, email address, home address or other personal information you provide via the transmission of a form or via any comments to the blog, are solely used for the specified purpose and get stored securely along with the respective submission times and IP-address. These data do not get passed on to third parties.

Therefore, we use personal data for the communication with only those users, who have explicitly requested being contacted, as well as for the execution of the services and products offered on this website. We do not pass your personal data to others without your approval, but we cannot exclude the possibility this data will be looked at in case of illegal conduct.

If you send us personal data via email – and thus not via this website – we cannot guarantee any safe transmission or protection of your data. We recommend you, to never send confidential data via email.

Rights in accordance with the General Data Protection Regulation

You are granted the following rights in accordance with the provisions of the GDPR (General Data Protection Regulation) and the Austrian Data Protection Act (DSG):

- right to rectification (article 16 GDPR)
- right to erasure ("right to be forgotten") (article 17 GDPR)
- right to restrict processing (article 18 GDPR)
- right to notification – notification obligation regarding rectification or erasure of personal data or restriction of processing (article 19 GDPR)
- right to data portability (article 20 GDPR)
- Right to object (article 21 GDPR)
- right not to be subject to a decision based solely on automated processing – including profiling – (article 22 GDPR)

If you think that the processing of your data violates the data protection law, or that your data protection rights have been infringed in any other way, you can lodge a complaint with your respective regulatory authority. For Austria this is the data protection authority, whose website you can access at <https://www.data-protection-authority.gv.at/>.

Evaluation of Visitor Behaviour

In the following Privacy Policy, we will inform you on if and how we evaluate the data of your visit to this website. The evaluation is generally made anonymously, and we cannot link to you personally based on your behaviour on this website.

You can find out more about how to disagree with the evaluation of visitor data, in the Privacy Policy below.

TLS encryption with https

The terms TLS, encryption and https sound very technical, which they are indeed. We use HTTPS (Hypertext Transfer Protocol Secure) to securely transfer data on the Internet. This means that the entire transmission of all data from your browser to our web server is secured – nobody can "listen in".

We have thus introduced an additional layer of security and meet privacy requirements through technology design Article 25 Section 1 GDPR). With the use of TLS (Transport Layer Security), which is an encryption protocol for safe data transfer on the internet, we can ensure the protection of confidential information.

You can recognise the use of this safeguarding tool by the little lock-symbol, which is situated in your browser's top left corner in the left of the internet address (e.g. [examplepage.uk](https://www.examplepage.uk/)), as well as by the display of the letters https (instead of http) as a part of our web address.

If you want to know more about encryption, we recommend you to do a Google search for "Hypertext Transfer Protocol Secure wiki" to find good links to further information.

Embedded Social Media elements Privacy Policy

We have embedded elements from social media services on our website, to display pictures, videos and texts. By visiting pages that present such elements, data is transferred from your browser to the respective social media service, where it is stored. We do not have access to this data.

The following links lead to the respective social media services' sites, where you can find a declaration on how they handle your data:

Instagram Data Policy: <https://help.instagram.com/519522125107875>
For YouTube, the Google Privacy Policy applies: <https://policies.google.com/privacy?hl=en-GB>
Facebook Data Policy: <https://www.facebook.com/about/privacy>

Wix Privacy Policy

For our website we use the website construction-kit Wix by the Israeli company Wix.com Ltd., 40 Hanamartel Aviv St., Tel Aviv 6350671, Israel. In addition to the headquarters in Tel Aviv, the company also has other headquarters such as in Berlin, Dublin, Vancouver, or New York. Due to the use of Wix, your personal data may be collected, stored and processed. In this privacy policy we want to explain why we use Wix, what data is stored, where your data is stored and how you can prevent data retention.

What is Wix?

Wix is a website construction-kit that makes it very easy to create HTML5 websites as well as mobile websites. The online platform is based on the cloud principle and allows easy integration of various Wix or third-party provider functions into your own website.

Why do we use Wix on our website?

For working on our website, we need an easy-to-use system, that allows us to present you a beautiful design and interesting content quickly and easily. We have found Wix to be the right system for this. Thanks to both, Wix's easy operation and its extensive functions, we can design our website as we wish, while ensuring its user-friendliness.

What data is stored by Wix?

Non-personal data include for example technical usage information such as browser activity, clickstream activity, session heat maps, as well as data about your computer, operating system, browser, screen resolution, language and keyboard settings, internet provider and date of the page visit.

Personal data are also recorded. These are primarily contact details (email address or telephone number, if you have provided them), IP address or your geographical location.

Tracking systems such as cookies are used to collect data about your behaviour on our website. For example, it records which sub-pages you take a particular interest in, how much time you spend on individual pages, when you leave a page (bounce rate) or which pre-sets (e.g. language settings) you have made. Based on this data, Wix.com can adjust their marketing measures better to your interests and your user behaviour. Therefore, the next time you visit our website, you will get to view it with the settings you have chosen priorly. Wix.com may also forward personal data to third parties (such as service providers).

Below we will show you a list of exemplary cookies that are placed due to the use of Wix:

Name: XSRF-TOKEN
Value: 1591628008JP01ovn-JtsrK
Purpose: This cookie is a security cookie and prevents the so-called cross-site request forgery, which is an attack on a computer system.
Expiry date: after end of session

Name: _wixCIDX
Value: b2474394-b64f-4c7a-a598-16b9043a8938121690788-9
Purpose: This cookie appropriately stores data when you to log in to our website, to shorten the logon process the following time.
Expiry date: after 3 months

Name: AWSELB
Value: EB626B5A40C80CEFD0EB26286F9684716FECD023880992D31DEC38121690788-1
Purpose: This cookie is used to distribute the website's load across multiple servers. Therefore, the page loading speed gets increased.
Expiry date: after one hour

Name: AWSELBCORS
Value: 85FDC7C91873988D19D2D53305AA8CAB73AF02FCEAEB626B5A40C
Purpose: We have not yet been able to find out more information on this cookie. We will inform you as soon as we know more.
Expiry date: after one hour

Note: Please note that the cookies shown above are examples and that this list does not claim to be exhaustive.

How long and where is the data stored?

Your data can be stored on various servers that are distributed across the globe. For example, the data can be stored in the USA, Ireland, South Korea, Taiwan, or Israel.

Wix always stores data until it is no longer required for their provided service. We have not yet been able to find out more about the period the data is stored for.

How can I delete my data or prevent data retention?

You have the option to update, correct or delete your personal data at any time. You can also contact Wix's data protection department directly at privacy@wix.com.

To deactivate, delete, or manage cookies you have to select the appropriate settings in your browser. Depending on which browser you use, the cookie settings work a little differently. The following instructions show how you can set or manage cookies in the most common browsers.

Chrome: Clear, enable and manage cookies in Chrome

Safari: Manage cookies and website data in Safari

Firefox: Clear cookies and site data in Firefox

Internet Explorer: Delete and manage cookies

Microsoft Edge: Delete cookies in Microsoft Edge

Wix.com Ltd. is headquartered in Israel. The European Commission declared Israel to be a country that provides adequate protection for personal data of EU citizens.

Moreover, Wix.com is an active participant in the EU-US Privacy Shield Framework, which regulates the correct and secure transfer of personal data. You can find more information at <https://www.privacyshield.gov/participant?id=a2zt-0000000GnbGAAS&status=Active>. We hope that with this data protection declaration we were able to make you more familiar to data processing by Wix.com. If you would like more detailed information on this, we recommend the company's privacy guidelines at <https://www.wix.com/about/privacy>.
